

# HAPPY HORMONES PACKAGE

## WHO IS THIS FOR?

Women 30+ who are aware of a hormonal imbalance (**digestive issues**, irregular cycle, abdominal weight gain, mood swings, poor sleep and **low energy levels**).

Women who want to **uncover the root cause**, end the vicious cycle and feel like themselves again.

Women who have a **"DO-WHATEVER-IT-TAKES"** attitude to get & remain in the best shape without "magic pills".

## HOW WILL I HELP YOU?

Together we will **uncover the mysterious reasons** behind your health issues. We **co-create** a strategic plan that is sustainable and suits your lifestyle.

We will build strong fundamentals and **track progress** along the way to adjust the strategy (meal plans, supplements, workouts).

I will hold you accountable and become your guide on your transformational journey pulling you up when you are about to fall or experience challenges.

Until you become **THE MASTER OF YOUR HEALTH & CAPTAIN OF YOUR SOUL**.

## IS THIS PACKAGE RIGHT FOR YOU?

THE HAPPY HORMONES transformational program is designed to give you the flexibility to reach out for help more frequently rather than waiting for weeks or months to ask questions.

By getting **weekly feedback**, you avoid making dietary mistakes and information overload, which can be overwhelming and lead to confusion.

You won't need to search through hours of videos but rather be shown what to implement next based on your progress.

You save time & effort and increase the success rate by taking small actionable steps.

You keep the momentum going by getting weekly inspiration and extra motivation to continue your hero's journey and become unstoppable.

You will learn how to re-balance your hormones or improve metabolic functions by applying the power of science & spirituality.

A holistic approach using the **five pillars of well-being and Functional Medicine**

- mental
- emotional
- physical
- spiritual
- nutritional

Nothing works in isolation. Stress impacts sleep, food choices, mood, menstrual cycle and microbiota.

Food impacts microbiota, which produce energy and the hormone serotonin. Imbalances can cause constipation or anxiety, which leads to emotional overeating and stress. It is a vicious cycle; however, there is a way out.
